“We go the extra mile”

Welcome to Stonestreet's Coaches.

We would like to take this opportunity to introduce you to Stonestreet's Coaches, our service and our quality vehicles.

Stonestreet's Coaches is a family owned and operated company specialising in providing quality vehicles for tours, charters, schools and project bussing to industry.

Founded more than 30 years ago by Keith Stonestreet, Stonestreet's Coaches has developed into a well established successful business operating a fleet of more than 80 vehicles from our depots in the Darling Downs, Brisbane and Gladstone.

Our 16 luxury coaches are available for day and extended charters, as well as operating on our express services between Brisbane and Toowoomba and our own Stonestreets Travel Club tours.

Stonestreet's Coaches have also been successful in providing project bussing for major projects including:

- Millmerran Power Station,
- Kogan Creek Power Station,
- Darwin LNG Plant,
- Several gas and oil pipeline construction teams
- Yarwin 2 Alumina Refinery,
- South Walker Creek Coal Mine - Nebo
- Daunia Coal Mine - Coppabella
- Combined LNG Plants - Gladstone & Curtis Island

These projects have seen Stonestreet's fleet increase to more than 100 vehicles at times.

We are proud of the relationships we develop with our clients, the service and quality we provide and our positive approach providing what you want, when you want it. We live up to our slogan - "We go the *extra* mile!"

Our fleet is constantly being updated to ensure our clients enjoy modern air conditioned, seat belt equipped vehicles. We are also proud of the fact we have an environmentally friendly fleet of vehicles which comply with the latest stringent Euro 3 & 4 emission standards.

Stonestreet's Coaches can provide one or several coaches at a time. From mini buses to stretch-liners, we can meet your requirements.

For more information on Stonestreet's Coaches range of services, or how we can assist you, please call:

“We go the extra mile”

Our Maintenance Program

To maintain our fleet, Stonestreet's Coaches have fully equipped workshops at each depot as well as fully equipped maintenance vehicles for roadside assistance.

From purchase, all vehicles are placed on a strict preventative maintenance program with regular services and check-ups. This is over and above the compulsory bi-annual Queensland Transport inspections.

Major components such as air conditioners, alternators, starter motors etc, are rebuilt and undergo a major service every 12 months.

We have the facilities to perform major mechanical tasks, such as engine and gearbox rebuilds, as well as general regular vehicle services.

Our body shop is equipped to keep our vehicles bodies and paintwork in pristine condition.

The maintenance team is available around the clock to keep our fleet moving at all times.

Our Toowoomba workshop houses one of the only privately owned 'state-of-the-art' brake and suspension testing machines in Queensland

TRAVEL PTY LTD ABN 88 075 505 547 ACN 075 505 547

“We go the extra mile”

Stonestreet's Coaches employ a team of cleaners to keep the fleet clean and tidy. They are dedicated crew who make themselves available 24/7 to wash and tidy the fleet when it returns to the depot.

Mechanical bus washers shorten fleet 'turn around' times significantly by cutting washing time down to less than 5 minutes per bus. It's also great for the environment reducing water consumption by 80%.

Keeping the Fleet Clean

STONESTREET'S

INVESTMENTS PTY LTD ABN 19 090 887 111 ACN 090 887 111
COACHES PTY LTD ABN 93 042 874 066 ACN 002 738 927
TRAVEL PTY LTD ABN 88 075 505 547 ACN 075 505 547

Vehicle Tracking

Since the introduction of GPS, Stonestreet's have seen the potential in monitoring our vehicles. We have fitted our vehicles with the latest tracking devices returning information on

- Vehicle Location
- Road Speed
- Pick up points (park brake on door open/door close)
- Engine Monitoring (key on/off)

Vehicle monitoring eliminates the 'say so' factor of

- Vehicles departed pickup point late/early
- Vehicle speeding
- Vehicle Departs Depot late/early

In the unfortunate event of a vehicle breakdown we have the ability to give our maintenance team the exact location of the stricken vehicle.

As technology comes to hand we will also have the ability to monitor engine revs, coolant and oil levels, engine pressures, fuel levels etc.

“We go the extra mile”

Clean & Green

Stonestreet's Coaches have made a commitment to reduce green-house gases by upgrading our vehicles to the latest technology 'clean' engines that comply with stringent Euro III and Euro IV emission standards. Even though it is still not mandatory yet in Australia , we have chosen to step up to the mark and take on a responsible role purchasing latest technology buses producing cleaner emissions.

Global warming is everyone's problem and with our low emission buses we at Stonestreet's Coaches are doing our bit to help the planet “go the extra mile”.

*As a commitment to make the world a better place for our children,
we are powering our vehicles with low emission Euro IV engines.*

STONESTREET'S COACHES - helping the planet “go the extra mile”

“We go the extra mile”

The Company has invested in software packages that allow us to integrate the management of Fleet Maintenance (VMS) with our Operations (Coach Manager).

DRIVER FITNESS FOR DUTY

The Coach Manager software package, and our Driver Fatigue Management Policy are used to manage all aspects of Driver Fitness for Duty.

- Drivers' Licence and Driver's Authority details are recorded in Coach Manager. Monthly reports identify expiry dates in advance. Coach Manager warns our Operations team when they attempt to allocate a driver whose licence or authority has expired, or if the driver's licence category is not compatible with the vehicle.
- Our Driver Fatigue Management Policy has been independently audited and the company has been accredited by the National Heavy Vehicle Accreditation System. Each job itinerary is reviewed prior to rostering a driver to ensure the schedule can be completed within regulations. Driver Work Diary sheets are reviewed by Operations after each trip to ensure compliance.
- Bus Safe Medicals – The Company in conjunction with The Health Advantage at St Andrew's Hospital developed the Bus Safe Medical Program to enhance the nationally accepted Truck Safe Model. All Stonestreet's drivers (including those who drive long distance charter) will undertake a Bus Safe Medical, conducted by The Health Advantage, every 3 years. This is over and above the medical that all drivers must obtain to renew their Driver's Authority.
- Our Drug and Alcohol Testing Policy requires drivers to complete Breath Testing on a shift basis and are subject to random test from time to time. Drug screening is incorporated in the Bus Safe Medical Program. We are currently investigating a Random Drug Testing Program.

CRITICAL INCIDENT MANAGEMENT

The Company takes every possible step to avoid incidents during our operations but accidents and incidents can still occur due to circumstances beyond our control. Therefore, the Company has implemented a Critical Incident Management Policy to ensure that the Company can minimise the impact of any incident. This Policy covers every possible situation from a minor traffic delay to vehicle breakdowns and accidents.

SAFETY MANAGEMENT SYSTEM

The Company is currently doing a complete review of our Workplace Health & Safety procedures. The Critical Incident Management Policy and Driver Fatigue Management Policy will be integral parts of this System.

TRANSPORT ACCREDITATION

Stonestreet's currently hold Operator Accreditation to conduct Public Transport Services within:

Queensland Accreditation Number 105743 - Stonestreet's Coaches Pty Ltd.

Queensland Accreditation Number 900315142 – Stonestreet's Investments Pty Ltd.

New South Wales Accreditation Number 34990 – Stonestreet's Investments Pty Ltd.

Northern Territory Accreditation Number 2315 – Stonestreet's Investments Pty Ltd.

Queensland Transport conducted a Public Transport Audit in early September 2009. New South Wales completed an Independent Audit in January 2010. Both Government Departments have confirmed that our systems meet the required standards.

“We go the extra mile”

Smaller Coaches

Stonestreet's Coaches will tailor make a fleet to suit your requirements. We will supply buses of all sizes to transport your workers to and from site in air conditioned comfort - with drivers or on a “Dry Hire” agreement. Here are some of the vehicles utilised on contracts.

Toyota Hiace Mini Bus

9 seats, Air Conditioned, Seat Belts

Great for Office staff and management crews who need to be on site before the teams arrive.

Ideal for “Dry-Hire” arrangements. Can be driven on a standard car licence.

Iveco Daily Mini Bus

Can be configured for up to 14 seats, Air Conditioned, Seat Belts

Perfect for smaller project teams

Suited to “Dry Hire” arrangements. Can be driven on Qld Transport (or equivalent) LR Licence

This particular vehicle is fitted with 10 reclining passenger seats, lap sash seat belts, dual air conditioning system, DVD player, curtains and luggage compartment.

Mitsubishi Rosa Mini Bus

Mid range coach with 24 seats, air conditioning, seat belts.

Option for ‘with or without’ driver. Can be driven on Qld Transport (or equivalent) LR Licence

We take the standard seats out and replace them with 24 coach seats with lap-sash seat belts.

Other comforts include air conditioning CD/PA radio system and a state of the art DVD player.
